DIOCESE OF GRACE
OFFICE OF THE BISHOP

Most Rev. Dr. Ignatius D'Souza
President of St. Alphonsa Educational Society
and Bishop of the diocese of Bareilly.

MESSAGE FROM THE PRESIDENT

Dear Manager, Principal, Staff, Students, Parents, and Well-Wishers,

As we begin the Academic Year 2026-2027,
we do so with hearts filled with gratitude for the
blessings of the past and hope for the opportunities that lie ahead.

A new academic year invites us to look back with gratitude, look around with responsibility, and look forward with confidence. The achievements of the previous year were made possible through the collective efforts, dedication, and teamwork of the entire Don Bosco School family. I sincerely thank our Manager, Principal, teachers, non-teaching staff, parents, students, and well-wishers for their invaluable contribution to the growth and excellence of our institution.

This year also marks a significant transition in leadership. I express my heartfelt appreciation to Sr. Joyce Fernandes for her dedicated service as Principal during the past three years. Her commitment and leadership have greatly enriched the life of the school. We thank her and wish her God's abundant blessings in her future mission.

At the same time, I extend a warm welcome to Sr. Anitha Mendonca as she assumes office as the new Principal. We wish her every success and assure her of our prayers, cooperation, and support as she leads the school forward.

Education is not merely the acquisition of knowledge but the formation of character, values, and leadership. Let us continue to work together to create an environment where every student can grow intellectually, morally, and spiritually.

May this academic year be marked by excellence, creativity, discipline, and a renewed commitment to the ideals of Saint Don Bosco. Together, let us strive to make our school a beacon of learning, faith, and service.

I wish all our students, teachers, and staff a fruitful, joyful, and successful Academic Year 2026-2027.

"Education is the most powerful weapon which you can use to change the world." — Nelson Mandela

May God bless you all.

KEY NOTE

Greetings to all!

It gives me immense joy to extend my warm greetings to the entire Don Bosco Senior Secondary School family as you bring out another edition of your Annual School Magazine. This magazine is I believe, a living chronicle of the school's journey, celebrating achievements, preserving memories, and reflecting the talents, and values of then whole school community.

We are living in an era of unprecedented technological advancement. Artificial Intelligence, digital learning, innovation, and global connectivity are transforming the way we learn, think, and work. While these developments present exciting opportunities, they also challenge us to remain deeply rooted in the timeless values of truth, integrity, compassion, responsibility, and respect for human dignity. Education today must therefore go beyond academic excellence; it must shape individuals who possess not only knowledgeable minds but also compassionate

hearts and upright character.

Don Bosco School is committed to this one focussed mission-to form young men and women who are intellectually competent, morally responsible, spiritually grounded, socially committed, and ready to serve society with generosity and love. Success is measured not merely by examination results, but by the kind of human beings our students become.

My dear students, each one of you is uniquely gifted by God. Never underestimate your potential. Dream big, work hard, remain disciplined, and never be afraid of challenges.

Dear teachers, I express my heartfelt appreciation for your dedication and sacrifices.

You are not merely instructors; you are mentors, guides, and architects of the future. To our beloved parents, thank you for the trust you place in our institution. The family is the first school, and parents are the first teachers. When home and school work together with mutual respect, open communication, and shared values, children flourish academically, emotionally, morally, and spiritually. Let us continue this partnership of building the future of the future citizens of our beautiful country Mother India.

I also extend my sincere gratitude to the Fr. Sanjeev the Manger, Sr. Joyce the Principal, Sr Anitha (Present Principal), the Sisters, the teaching and the non-teaching staff, whose commitment and teamwork contribute to the growth and reputation of Don Bosco Senior Secondary School. Your dedication continues to make this institution a beacon of excellence and hope in the Diocese.

I invoke God's abundant blessings upon Don Bosco Senior Secondary School, Pithoragarh. May St. John Bosco, the great educator of youth, continue to inspire the entire school community. May this institution always remain a centre of excellence. With my prayerful best wishes for God's richest blessings on every member of the Don Bosco family.

HEAD NOTE

Rev. Fr. Sanjeev Kumar
Manager,
Don Bosco School, Pithoragarh, Uttarakhand.

"Education is the most powerful weapon which you can use to change the world."
These inspiring words remind us that true education is not merely the accumulation of knowledge, but the harmonious formation of the human person intellectually enlightened, emotionally balanced, morally upright, and spiritually rooted.
It gives me immense joy to present the annual school magazine for Don Bosco School, Pithoragarh. This magazine reflects the creativity, achievements, talents, and vibrant spirit of our students and staff. Every page is a testimony to the hard work, dedication, and growth experienced throughout the academic year.
Education today is not limited to academic excellence alone. The true purpose of education is to shape young minds intellectually, emotionally, morally, and spiritually. At Don Bosco School, Pithoragarh, we strive to provide a holistic education that helps students become confident, responsible, compassionate, and value-oriented individuals.
From an educational perspective, we encourage our students to think creatively, develop curiosity, and cultivate a love for learning. We aim to prepare them not only for examinations but also for the challenges and responsibilities of life. From a psychological point of view, we understand that children today face various emotional and social pressures. Therefore, we believe in creating a supportive and encouraging environment where every child feels valued, motivated, and understood. Building self-confidence, emotional balance, resilience, and a positive attitude is equally important in the growth of a child.
From a spiritual perspective, we are inspired by the educational vision of St. Don Bosco, who believed that education must form not only intelligent minds but also good hearts. Values such as honesty, discipline, kindness, prayer, respect, and service to others remain central to our mission. Spiritual and moral formation gives meaning and direction to life and helps students grow into responsible citizens and compassionate human beings.
I sincerely appreciate the dedicated efforts of the Principal, teachers, students, parents, and the editorial team for bringing out this wonderful publication. May this magazine continue to inspire students to dream high, work hard, and walk on the path of truth and goodness.
May Almighty God bless Don Bosco School, Pithoragarh, and guide all our students towards a meaningful future.
With best wishes and blessings,

FOOT NOTE

It is with immense joy and pride we are here to place before you third edition of our magazine .
It reflects teachers and students hard work dedication stories of success and failure challenges and growth editorial board headed by Mrs Kamla Khati and Mrs Vijeta kharayat .

Our school has always believed that education extends far beyond textbooks. True learning blossoms when a child dares to explore, reflect, question, and create. This magazine stands as a testament to our students' evolving confidence, their creative expression, and their willingness to embrace new perspectives.

In a world advancing at an extraordinary pace, we aim to nurture learners who are not only academically competent but also emotionally mature, ethically grounded, and socially responsible. We encourage our students to cultivate a mindset of curiosity, compassion, and courage—qualities essential for becoming global citizens of tomorrow.

I wholeheartedly appreciate the dedication of our Editorial Team and the unwavering support of our teachers, whose constant guidance shapes the character and aspirations of our students. Their combined efforts have transformed this magazine into a meaningful and inspiring creation.

May this edition ignite new ideas, awaken hidden talents, and encourage every reader to dream boldly and strive consistently. May every child grow in the values and footprints Don Bosco their patron play jump enjoy learning but stay away from evil. We encourage creative thinking and numeracy. AI abacus and robotics will be introduced soon.

Warm wishes to all for continued success, growth, and excellence.

EDITOR'S NOTE

It gives me great pleasure to present this year's school magazine. This magazine is a collection of the creativity, talent, ideas, and achievements of our students and teachers. Every page reflects the hard work and enthusiasm of our school family.

The preparation of this magazine has been a wonderful learning experience. Collecting articles, poems, drawings, and other creative works from students was truly inspiring. I sincerely appreciate the efforts and cooperation of everyone who contributed to making this magazine successful.

> "Our goal is to curate stories that not only inform but also provoke thought, offering a fresh perspective that bridges the gap between raw ideas and refined insights."

I am also thankful to the school management for giving me the opportunity and responsibility to serve as the Chief Editor of the magazine. It has been an honour and a memorable experience for me.

I hope this magazine will encourage students to express their thoughts and talents with confidence. May it continue to inspire learning, creativity, and positivity among all readers.

CREATIVE TEAM

Editing this year's magazine was a perfect blend of fun and creativity. Balancing aesthetics with storytelling was a challenge, but seeing our team's collective ideas turn into reality was incredibly rewarding. This journey didn't just sharpen my editing skills, it gave me a deeper appreciation for our school's talent. I'm proud to have captured our best memories in such a vibrant way.

MOHAMMAD ZAINUL ABEDEEN SAIFI

Editing this year's magazine has been a transformative experience. It taught me that a great publication is more than just a collection of pages—it's a mosaic of our school's diverse spirit. While managing deadlines and fine-tuning details required discipline, the real reward was watching our team's scattered ideas evolve into a polished, professional narrative. I'm honored to have played a part in preserving this chapter of our history

OM KHARAYAT

Editing this year's school magazine has been an eye-opening journey. Beyond just selecting stories and photos, I learned the true value of patience, attention to detail, and meeting tight deadlines. This experience taught me how to weave individual voices into a single, cohesive story for our school. I am grateful for the opportunity to have contributed to a project that captures our collective memories and achievements.

Late Mr Gaurav Joshi - A Teacher Par Excellence

Sr Joyce Fernandes BS
Pithoragarh, Uttarakhand

The late Mr. Gaurav Joshi, a distinguished Physics Post-Graduate Teacher (PGT) at Don Bosco, exemplified the ideal educator. At the young age of 33, Mr Joshi made significant contributions to the academic community, leaving behind a legacy that continues to inspire both colleagues and students in their educational pursuits and in their personal development.

Mr Joshi's commitment to his vocation was unwavering; he consistently arrived early and departed late, demonstrating his dedication to the well-being of his students and the advancement of the school community. His profound presence during moments of prayer illustrated a commendable spiritual engagement, marked by total surrender to the divine.

Testimonies from students highlight the remarkable atmosphere in his classroom, characterized by an immediate silence upon his entrance—a testament to the respect and attention he commanded. Each lesson was well-prepared, fostering an environment where students were fully engaged and attentive. His meticulous organizational skills were evident in his record-keeping, ensuring that all communication from the Central Board of Secondary Education (CBSE) was addressed promptly, even at the expense of his personal time. Mr Joshi's commitment was such that he refrained from using his mobile phone during school hours, accepting Don Bosco as his second home.

Punctuality was another hallmark of Mr Joshi's professional demeanour. He maintained a proactive approach to lesson planning, regularly updating his curriculum to facilitate seamless class operations. Furthermore, he diligently checked students' notebooks and ensured the timely completion of assessments.

Mr Joshi's attribute of patience significantly contributed to his students' academic success in Physics, evidenced by the absence of failures during his tenure. His compassion extended beyond the classroom, reflected in his humanitarian efforts, including a selfless visit to a student in the Intensive Care Unit (ICU) in Delhi, thereby prioritizing the well-being of others.

His conscientiousness in preparing lessons and fulfilling responsibilities earned him the trust of both colleagues and Management. Mr Joshi's spiritual awareness manifested in his sincere prayers during school assemblies, representing a profound connection with the divine.

His benevolent nature was strikingly evident in his final moments; he forgave a former student involved in the unfortunate accident that resulted in his untimely demise, exemplifying remarkable selflessness and the greatness of his character.

Moreover, Mr. Joshi exhibited a high level of self-discipline and responsibility; there was no need for reminders regarding tasks entrusted to him. His presence alone served as a motivation for students to adhere to disciplinary standards. His polished appearance, sincerity, and ethical values left an indelible impact on all who had the privilege of knowing him.

In a relatively short period, Mr Gaurav Joshi made significant contributions to both the educational institution and the wider community. His passing represents a profound loss of a brilliant mind and a virtuous spirit. He will be deeply missed in the halls of Don Bosco.

The Pen's Quest

My Friend Doraemon

Doraemon is blue and round,
With funny feet that tap the ground.
He has a pocket full of surprise,
With gadgets cool and very wise!
He helps Nobita all the time,
And stops his trouble just in time.
I love to watch him every day,
He makes my worries fly away

Drops of rain fell on my head
Felt my "Shiva" calling me,
Hustle & bustle packed my luggage, Crossed many landslides, waterfalls & animals,
My destination,
bode of my Shiva "Shri Kedarnath".
On top of mountain,
Surrounded by snow clad peaks,
saw home of my "Shiva".

My Father, My Hero

My father, my hero, so strong and so kind,
He takes care of me, always on my mind.
He plays with me, reads me stories too,
And helps me learn, with a smile or two.
With a heart so loving, and hands so bright.
He guides me through, day and night.
I'm lucky to have, a dad like mine, My hero, my heart, my father, all the time.

Families

Family are people
Who care about you,
My family is special,
Your family is too!
Mothers and fathers,
Sisters and brothers,
Grandmas and grandpas,
And so many others!
One family is big,
While another is small,
Some family have children,
And some none at all!

My Teachers

My teachers are my life. Each day, they come to class with a smile on their face and excitement at the prospects of teaching. They teach us more than what is in the textbook; they teach us about life. Their teaching methods challenge students to be curious, to reason out their thoughts, and to always strive for the utmost in whatever they do.

As for my teachers, they excel us during classes when a topic is rather hard. My teachers are ever ready to give a helping hand in times of difficulty. I love my teachers.

MY HOME TOWN AGRA

RIDDHI YADAV

Hello my name is Riddhi Yadav. I am from Agra which is situated in the bank of Yamuna river. Agra was named by Sikandar Lodhi. You Know Agra is known for Tajmahal in worldwide.

I live in Rambagh, Agra but the name of Rambagh was originally Arambagh which was named by Babur, who was the founder of Mughal Empire. Agra was capital of Mughal empire during this period. Agra is one of the most famous city in India.

There are many more monuments in this city like Itmad-Ud-Daulah, Red Fort, Fatehpur Sikri and others. Agra is also famous for its food like Petha, Bedai, Dal moth and other delicious food.

In ancient times Agra is mentioned in Epic Mahabharat where it is referred as Agravan, that means border of forest. Agra is culturally, spiritually and religiously rich city. There are many religion like Hinduism, Islam, Sikhism, Jainism, Buddhism and Christianity and we live together with harmony.

So, my dear friends your most welcome to my home town Agra as we believe in concept of "Atithi Devo Bhavah"

Moment on this plant could be seen
But still the plant stood so mean
Not because of the nice fauna
But, it was suffering from a past trauma
The bird asked, "your leaves are beautiful and coiled"
On this the plant replied, "no, they are soiled."
The bird said it could be a home for her babies
On this she said; quiet that thought, lady.
The bird was filled with sorrow
Oh! Don't feel, this coil you can borrow.
Now the plant live with pride
Because it had given his coil for the birds to hide
This is how the flora fauna became friends
And the story here ends.

The Classroom Window

I sit in class, my mind so wide,
But my thoughts begin to drift outside.
Beyond the sums and grammar rules,
I see the world, so bright and cool.
The trees are swaying in the breeze,
Birds fly gently with such ease.
A dog runs past, kids laugh & play,
While I just count each passing day.
The sky is painted blue & white,
It fills my heart with silent light.
I dream of hills, of streams that sing,
Of butterflies & early spring.
Though lessons call, I sneak a glance,
That window gives my mind a chance.
To roam beyond this desk and chair -
A tiny door to everywhere.

They said "so glad he might be moved,"
But I unknowingly quietly stood,
With stones below the heart and blues
Holding ground as strong tears do.
They laughed at dreams that I chose,
At wings whose stretch tried to go close,
And within a hold that contained all gold,
But refused to let in quiet fold.
She sat the dullest in the scenery,
Still sparkled in a guilty jealousy,
Her hand may bloom with soft agony,
But stars are born in quiet glory.
They said "so glad he might be moved,"
But I unknowingly quietly stood,

Life is not just dates and years,
It's in the laughter shared at school,
The camera reel by the benches, the smiles,
The playful bonds, no dream too foolish.
It's in the quiet, calm nights and light,
Of sweet moments pure goon,
The little things of study, road, or sea,
Because our sweetest memory will always be.
These little things of study, road, or sea,
Because our sweetest memory will always be.
So smile with heart and don't forget,
The best of life is with us yet.

I Grew In Rain

Some people left when times were hard,
No goodbye, not even a card.
I waited, hoping they would care,
But all I found was empty air.
I cried alone, day after day,
Wondering why they walked away.
The sky was dark, my heart was sore,
I didn't feel strong anymore.
But the rain fell soft on my pain,
Like it was washing off the stain.
Every drop, though cold and slow,
Helped a little flower grow.
I didn't see it right away,
But something changed in me each day.
The storm that once felt like the end,
Became the start of how I mend.
The rain taught me to breathe again,
To laugh through tears, to dance in pain.
It showed me I could bend, not break,
And bloom again for my own sake.
Now when clouds cover the sky,
I don't just sit and wonder why.
I stand up tall, I don't complain,
Because I know I grew in rain.

Sitting in the class, when the clock moves slow
The sky outside is deep with a glow.
The chalk may fly, the books may stay
But my mind has quietly slipped away

When the window shows a softer sky where
birds and clouds together fly
My pen rests still, but thought drifts high &
they say marks makes a girl shine bright!

Start now go chase your dreams,
Not every lesson is taught in a stream
A girl like me in uniform neat Colours a world
that no one can beat.

He holds my hand when I feel small ,
Fights the world but breaks no wall .
Even in anger , he won't let go -
He stays , he heals , he helps me grow .
His love is fire , yet soft like rain ,
He shields my soul , absorbs my pain.
He stands for me when I feel none,
Like I'm his moon, his only sun.
He doesn't promise skies or gold,
But holds me close when nights get cold.
And when I fall, he fall with me ,
No questions asked - he lets me .
They see his pride, his sharper tone,
But I have touched the love he has shown.
The way he loves - so raw, so wide,
With him, I never need to hide.
No matters what , he never roams.....
He is my fight.
He is my home.

Not just a Rainbow

The hush descends as sun breaks through grey
And paints us blue when tears and light play
The leaves of trees in silent woods
Behave like emeralds make me feel good
A whisper of clouds
A breathe in the barge
A kiss from morning that dances with ease
The fluffy clouds like a cotton ball
The seven colours giving a tender fall
The beauty of rainbow is magnified
It paints us abode upon the open mind

The School Life

School life teaches more than looks,
In every corner, memory blooks.
From silent halls to playground cheer,
Each day brings friends and futures near.
Though pressure comes, we still survive,
It's where we learn to truly thrive.
With dreams to chase and goals to find,
School builds the strength of heart and mind.
A time so pure, forever stays!
In thoughts, in smiles, in countless ways.

Why I Want to Become a Doctor

I want to become a doctor because it is one of the most noble and respected professions. Doctors play a very important role in society, they save lives, help people stay healthy, and provide hope during tough times. I have always admired the way doctors treat their patients with care, dedication, and kindness.

Another reason I want to be a doctor is because I love science, especially biology. I'm fascinated by how the human body works and how medicines and treatments help people recover. Studying medicine will allow me to learn more and use that knowledge to help others.

I also feel a strong desire to serve people, especially those who live in villages or poor areas where medical facilities are limited. Many people suffer just because they can't afford proper treatment or don't have access to good doctors. I want to be someone who brings them relief and hope.

Being a doctor is a big responsibility, but it is also a chance to make a real difference in the world. That's why I want to work hard, study sincerely, and become a doctor who not only treats diseases but also spreads kindness and care

The Magic of Silence

Aaron Zubin Singh
VIII A

The Magic of Silence. "Silence is not empty ,it is full of answers" In our noisy and busy world, silence has become rare. From the early morning alarms to the sounds of traffic ,schools ,television and cell phones we hardly get a moment of peace but have we ever thought about how powerful silence is? I realised the value of silence one day when there was no electricity in our area. At first , I felt too bored , but then I sat near the window, watched the sky, listen to the birds, and even heard my own heartbeat that moment felt magical. I felt calm, and my mind became clearer. Silence helps us listen our thoughts. It also helps us understand things better. Sometimes when our friends are sad ,they don't need advice; just out silent presence is enough to make them feel supported.

This is the magic of silence. We don't always have to speak to express ourselves .Even a silent prayer can reach God. A silent movement in nature can refresh our mood , and silence during study time helps our mind to focus. In today's world, we all need to spend a few minutes in silence everyday. It's not just peaceful, but it's powerful

When the World Sleeps but the Mind Doesn't

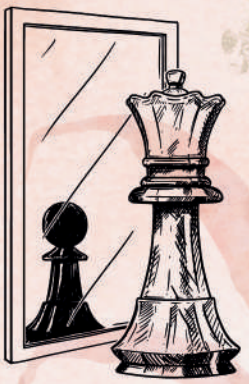

When the lights go off and the house grows quiet, something curious happens — your mind wakes up. The night wraps itself around you like a dark curtain, but behind it, your thoughts start dancing.

In the daytime, your brain is busy: teachers talking, friends laughing, buses honking, phones buzzing. But at night, when all that noise fades, your thoughts finally get the stage. They whisper, wander, and sometimes sprint — replaying old memories, imagining future worries, or turning tiny problems into giant shadows on the wall.

Overthinking at night isn't because your mind wants to trouble you. It's simply bored of silence and hungry for something to chew on. Like a curious cat in an empty room, it explores every corner.

So the next time your thoughts refuse to sleep, remember — your mind isn't your enemy. It's just a storyteller who loves the midnight hour

THE MEANING OF POWERFUL Mindset In Today's World

In today's fast-moving world, where almost everything is done using technology. Here, the meaning of a powerful mindset is more important than ever, especially for kids today , who are growing up surrounded by smartphones, social media, and most widely used- AI (Artificial Intelligence). Most of the people today, especially Children, students, and even grown-ups, are continuously accessing anything in seconds, from finding homework answers on AI apps to watching endless online videos. This also shows that these easy-to-access software are absolutely making them dependent. This has become today's generation's superpower, which is attracting today's generation to shut down, weaken, and drown into despair.

BUT... powerful mindset is something that technology cannot surpass. It means building inner strength that begins within, staying focused even while moving along distractions. This can result in a powerful mindset and help you achieve countless possibilities. For this ,you should stop having skirmishes with yourself while making decisions, just finalize that YOU... only you can do it! And you don't have to be dependent on anything. Children must follow they find the best at whether it's about becoming curious and discovering astronaut or about becoming an all-star popular footballer playing soccer with own will and determination. They shall have freedom first today for a powerful mindset.

Small Steps to Big Dreams

Divyanshi Punetha
IX B

Everyone has a dream and for making those dreams into reality, it requires persistence, hard work and potential to take small steps which will lead to big dreams. Small steps matter a lot as they help you to concentrate and focus more and helps to stay motivated. Small steps builds consistency that leads to success but the thing is that you should be clear about your goals and should work accordingly. Make a daily routine and try to follow that routine. By taking that small steps you will boost your confidence, focus and will prepare well for facing the coming challenges. Each small steps will motivate you to take another step. If you will think today for your goals and will take small steps then definitely you will have a great tomorrow and nobody will be able to stop you to achieve the success and to taste the victory. So don't forget that how beneficial these little steps are! And work so hard that nobody can catch you.

My Journey as Blue House Captain – A New Chapter Begins

Taking on the role of House Captain of Blue House has been one of the most memorable and proudest moments of my school life. My name is Aaditya, and this is the first time I have had the opportunity to lead not just my classmates, but an entire house filled with talent, spirit, and energy. At first, when my name was announced, I was filled with a mix of emotions — happiness, nervousness, excitement, and a sense of responsibility. I always admired our previous house captains, and now, being in their shoes, I understand how much effort and dedication this role requires. The experience so far has been amazing. I have learned the importance of teamwork, time management, and being a good listener. I've had the chance to motivate others, organize events, and most importantly, build strong bonds with my fellow housemates. Every morning assembly, every practice session, and every inter-house competition has helped me grow — not just as a leader but as a person. One of the most fulfilling moments for me was seeing the Blue House cheering together with full unity and spirit during our first house event. Win or lose, we stood strong and proud as one team. That is the true essence of being in a house: unity, effort, and sportsmanship. I would like to thank my house teachers and school management for support throughout the year. This is just the beginning of my journey as House Captain, and I'm excited for what's ahead. Together, as one Blue House family, we will continue to rise, shine, and inspire.

Sarpanch started with the work he had done for the village;
Opponent asked had he created really any image?
To this sarpanch in full confidence started to count But opponent replied it is not a big amount.
Opponent was ready with the mistakes done by sarpanch,
Which gave his election campaign really a punch.
But sarpanch knows how to tackle,

Both the parties have their own supporters.. And wanted to get more voters...
None of them lagged in making the promises to people
Which created in the public's cheek a pretty little dimple.
Each party is busy in raising their posters and banner,
And the main discussion among the people is who will be the winner.

The Importance of Mental Health for Students

In today's fast-moving world, students are meeting more challenges than ever before,Along with studies, exams, and extra activities, they also deal with stress, peer pressure, and personal worries. In such situations, taking care of mental health is an important as keeping our body healthy.

What is Mental Health?

Mental health means our emotional, psychological and social well-being. It affects how we think, feel, and act. A healthy mind helps us handle stress, build good relationships, make decisions and stay positive.

Why is it Important for Students?

As students, we have to manage studies, friendships and family expectations. Sometimes, too much pressure can make us feel anxious or sad. If ignored, it can affect our studies and health. Good mental health helps students to stay focused, confident and motivated.

How to Take Care of Mental Health?

- Share your feelings with family and friends.
- Take breaks while studying.
- Enjoy hobbies like drawing, dancing or playing sports.
- Sleep well and eat healthy food.
- Don't be afraid to talk to teachers or counsellors if you feel low.

Conclusion

A happy mind is the key to a successful life. Students should understand that it's okay to feel stressed sometimes, but it's important to manage it properly. A positive attitude and caring environment can make a big difference in students' life. Let's promise to care for our mental health, just like we care for our studies.

The Psychology of Déjà Vu: Glitch in the Brain or Glimpse of Another Life

What is Déjà Vu Really?

Déjà vu is the strange and sudden feeling that you're re experiencing a moment for the second time - even though you logically know it's happening for the first time. Most people encounter this sensation at least once, often in youth. It's a mix of memory and perception, but without a real memory attached.

The Science: A Brain Glitch in the Matrix

Neuroscientists suggest déjà vu is caused by a misfire in the brain's memory system, especially in the temporal lobe. When your brain wrongly labels a new experience as familiar, it creates the illusion that it's happened before. Delayed neural signals or stress may also contribute to this effect.

The Spiritual Angle: A Glimpse into a Past Life

Some believe déjà vu is more than a brain error - it's a soul memory from a past life or a sign from the universe that you're aligned with your destiny. Though unproven, such views offer comfort and meaning where science remains uncertain.

Is Déjà Vu Proof of the Multiverse?

A bold theory links déjà vu to the multiverse - the idea that parallel realities exist. Déjà vu, in this view, could occur when your consciousness momentarily syncs with another version of you experiencing the same event in a different timeline.

Conclusion

Whether it's a neural hiccup, a soul echo, or a glimpse into another dimension, déjà vu remains a fascinating mystery. It reminds us that the mind is not just a machine - it's a gateway into possibilities we've only begun to explore.

Diary Entry

Dear school,

The first thing that comes in my mind when I think about COVID-19 is neither the masks, nor the vaccines but YOU. I still remember the last day at school before the lockdown, it was packed with excitement, laughter, and endless yapping. The next day, everything shut down, and we thought we'd return in a few days. But days turned into weeks, and weeks into months. When online classes began, "network issues" became our new mantras. We'd sneak in meals, still in our PJs, and try to make sense of this new normal.

When we finally returned to school, the corridors were quieter, the classrooms more serious. We were older, grown, and a little wiser and guarded. But amidst the chaos, something remained constant- the memories we created together before the lockdown and which we are creating now. You may have been just a school to some, but to me, you are a home. Where else will I claim to have survived the tedious lectures and desperate need for sleep? With love and nostalgia, From the page of my diary

AI vs Human

Harshit Bisht
XII A

Artificial Intelligence (AI) is a powerful tool in today's world. It helps with tasks like data analysis, medical diagnostics, and automation. AI can process large amounts of data quickly and accurately. However, it is limited to specific tasks and lacks the broad understanding that human intelligence has. Another difference is that AI can only simulate emotions; it doesn't truly feel them. Humans have emotional intelligence, which helps build relationships and make moral choices. Empathy, creativity, and judgment are unique to humans and cannot replicate. Still, AI and humans can work well together. AI can handle repetitive tasks and data, while humans make thoughtful, creative, and ethical decisions. Together, they can improve many areas of life. In conclusion, AI is a powerful assistant, but the human mind provides creativity, emotion, and ethics. The best result comes when people and AI work together. By combining AI's speed with human insight, we can solve problems faster and smarter. This partnership has the potential to change the world for the better. The future depends on how we use both human and Artificial Intelligence to help us in our daily life.

हरित भविष्य की ओर: नवीकरणीय ऊर्जा की अनिवार्यता

आज विश्व जलवायु परिवर्तन और बढ़ते प्रदूषण की गंभीर चुनौतियों का सामना कर रहा है। ऐसे समय में नवी करणीय ऊर्जा जैसे सौर, पवन और जल ऊर्जा एक स्थाई एवं स्वच्छ विकल्प के रूप में उभर रहीं है । यह न केवल पर्यावरण संरक्षण में सहायक है । बल्कि , ऊर्जा सुरक्षा और आर्थिक स्थिरता का भी मजबूत आधार बनती जा रही है ।
नवी करणीय ऊर्जा का उपयोग पारंपरिक इंधनों पर निर्भरता को कम करता है । जिससे वायु प्रदूषण और ग्रीनहाउस गैसों का उत्सर्जन घटता है। वर्तमा न में विश्व भर में नवीकरणीय ऊर्जा की मांग तेजी से बढ़ रही है । और भारत भी इस दिशा में उल्लेखनीय प्रगति कर रहा है । देश की ऊर्जा क्षमता का लगभग 40% भाग अब नवी करणीय स्त्रोतों से प्राप्त हो रहा है । जो एक सराहनी य उपलब्धि है । भारत सरकार ने 2030 तक 500 गीगावॉट नवीकरणीय ऊर्जा क्षमता प्राप्त करने का लक्ष्य निर्धारित किया है । सौर ऊर्जा पार्क, पवन ऊर्जा संयंत्र और हरित हाइड्रोजन जैसे नवाचार इस दिशा में मील का पत्थर साबित हो रहे हैं। यह प्रयास न केवल ऊर्जा आत्मनिर्भरता की ओर कदम हैं। बल्कि , आने वाली पीढ़ियों के लिए स्वच्छ और हरित भविष्य की नींव भी रख रहे हैं।

हर व्यक्ति के जीवन में कोई ना कोई ऐसा होता है जिसे वह अपना मार्गदर्शक, प्रेरणा स्त्रोत या आदर्श मानता है, मेरे जीवन में मेरे पिता मेरे आदर्श हैं। उन्होंने मुझे सच्चाई ,मेहनत और धैर्य का वास्तविक अर्थ सिखाया है ।

मेरे पिता का जीवन बहुत साधारण रहा है लेकिन उनके विचार कर्म असाधारण है वह हमेशा दूसरों की मदद करने को तैयार रहते हैं और ईमानदारी को सबसे ऊपर रखते हैं ,वह कहते हैं ,"कभी किसी काम को छोटा मत समझो । "मेहनत और ईमानदारी से किया गया हर काम महान होता है उनकी बातें मेरे जीवन के मार्गदर्शन के दीपक जैसी हैं जो हर अंधेरे में मुझे रोशनी दिखाती हैं ।

उनकी सादगी और मूल्य आधारित जीवन ने मुझे यह समझाया है कि सच्ची सफलता पैसों से नहीं बल्कि अच्छे कर्मों से मिलती है। उन्होंने हमेशा मुझे सिखाया है कि असफलता से डरना नहीं चाहिए बल्कि उसे सीखने का एक अवसर मानना चाहिए।

खुद से बातें

हर रात अंधेरो से कहता हूँ मैं
कल फिर उजाले को लाऊंगा मैं।
थके हुए सपनों को छूकर
नई आशा की चादर बिछाऊंगा
मैं।।

टूटे पत्तों को जोड़कर फिर से
दिल की किताब में रखता हूँ मैं
कुछ पन्ने भीगे हैं आंसूओं से,
फिर भी मुस्कुरा के पढ़ता हूँ मैं।।
न सूरज मेरा है, न चांद मेरा ,
पर हर सुबह को अपनाता हूँ मैं।
खुद से किए हर इक वादे को
हर दिन निभाने की ठानता हूँ मैं।
जो बीत गया , वो सिखा गया ,
अब जो है, उसी में जीता हूँ मैं।
कल की फ़िक्र अब कम लगती है।
अब खुद को आज में पाता हूं मैं।।

जीवन में परिपक्वता का महत्व

जीवन एक यात्रा है, जिसमें हमें कई उतार-चढ़ाव से गुजरना पड़ता है। इस यात्रा में सफलता और असफलता दोनों का सामना करना पड़ता है। परिपक्वता जीवन की इसी यात्रा में हमें सही दिशा दिखाने का काम करती है। परिपक्वता का अर्थ है अपने अनुभवों से सीखना और उन्हें जीवन में सही तरीके से लागू करना ।

बीते हुए कल को छोड़ना

परिपक्वता का एक महत्वपूर्ण पहलू है बीते हुए कल को छोड़कर वर्तमान में जीना । अतीत में की गई गलतियों को लेकर दुखी होने से कुछ नहीं मिलता , बल्कि इससे वर्तमान भी खराब होता है। अतीत से सीख लेना और आगे बढ़ना ही परिपक्वता है। जैसे रामायण में भगवान राम ने अपने पिता की आज्ञा का पालन किया और अतीत के बारे में कभी नहीं सोचा , वैसे ही हमें भी अपने जीवन में आगे बढ़ने के लिए अतीत को भूलना होगा ।

अतीत,जीवन की एक किताब की तरह है, जिसमें हर पन्ना एक नए अनुभव को दर्शाता है। कुछ पन्ने खुशियों से भरे होते हैं, तो कुछ दुखों से। लेकिन हर पन्ना हमें कुछ नया सिखाता है। परिपक्वता इसी में है कि हम इन अनुभवों से सीखें और आगे बढ़ें। जीवन की इस किताब में हमें हर पन्ने को ध्यान से पढ़ना चाहिए और उससे सीख लेनी चाहिए।

पुरानी बातों को माफ करना

परिपक्वता का एक और महत्वपूर्ण पहलू है पुरानी बातों को माफ करना । जब हम किसी को माफ करते हैं, तो हम खुद को भी शांति देते हैं। माफ करने से हमारे मन का बोझ हल्का होता है और हम जीवन में आगे बढ़ पाते हैं। अतीत की गलतियों को माफ करके ही हम वर्तमान में सच्ची खुशी पा सकते हैं।

उर्वशी पुनेठा

निष्कर्ष

जीवन में परिपक्वता बहुत जरूरी है। परिपक्वता हमें जीवन के हर मोड़ पर सही निर्णय लेने में मदद करती है। बीते हुए कल को छोड़कर वर्तमान में जीना , जीवन की किताब से सीखना और पुरानी बातों को माफ करना परिपक्वता के महत्वपूर्ण पहलू हैं। अगर हम इन बातों को अपने जीवन में उतारें, तो हमारा जीवन सुखी और सफल हो सकता है।

अगर सभी विषय बोल पाते, तो सबसे पहले विज्ञान कहता —

"अगर मुझे अच्छी तरह पढ़ोगे तो डॉक्टर, इंजीनियर, वैज्ञानिक, पायलट सब बन सकते हो। कभी किसी के आगे हाथ नहीं फैलाना पड़ेगा। बस मन लगा कर पढ़ो। मैं कठिन नहीं हूँ, बस समझने की जरूरत है। यदि समझ जाओ तो गुणा -भाग, प्रकाश-गति, सब आसान हो जाएगा।"

गणित तुरंत बीच में कूदकर कहता —

"अरे! मेरे बिना तो मोबाइल से लेकर अंतरिक्ष तक कुछ नहीं चलेगा। मैं हर चीज में हूँ — रुपये-पैसे में, बाज़ार में, बैंक में, गिनती में, और यहाँ तक कि विज्ञान में भी! अगर थोड़ा रोज़ प्रैक्टिस कर लो, तो मैं तुम्हारा सबसे अच्छा दोस्त बन जाऊँगा। मेरे बिना तो दुनिया का हिसाब-किताब ही बंद हो जाएगा।"

अंग्रेज़ी अपने स्टाइल में बोलती —

"ग्लोबल दुनिया में घूमना हो, तो मुझे जरूर सीखो। मेरे बिना कम्युनिकेशन कैसे करोगे? इंटरनेशनल स्तर पर आगे बढ़ने के लिए 'Hello', 'How are you?' जैसे शब्द रोज़ काम आते हैं।"

जिया धामी
IX A

समाज विज्ञान गंभीर हो कर बोलता —

"इतिहास, भूगोल, राजनीति — सब में सीख होती है। मैं तुम्हें यह बताता हूँ कि तुम कौन हो और कहाँ से आए हो। मैं देश-दुनिया की जानकारी देता हूँ, ताकि तुम समझदार नागरिक बनो।"

कंप्यूटर तुरंत कहता —

"21वीं सदी में मैं सबसे जरूरी हूँ। गेम हो या मोबाइल, ऑफिस हो या शॉप — सब मेरी तकनीक से चल रहा है।"

अब कला, संगीत और खेल भी बोल उठते —

"हम ही जीवन में रंग भरते हैं। हमें छोड़ दोगे तो मज़ा ही खत्म हो जाएगा। बिना हमारे स्कूल अधूरा है।"

निष्कर्ष

सच कहें तो,

अगर सभी विषय बोल पाते, तो हर विषय कहता —

प्रकृति

प्रकृति की सुंदरता को शब्दों में बाँध पाना बेहद कठिन है। चारों ओर फैली हरियाली , पर्वतों की ऊँचाई, नदियों का कल-कल बहना , सूरज की सुनहरी किरणें और ठंडी हवाएँ — ये सभी प्रकृति को अद्भुत व मनमोहक बना देती हैं। प्रकृति हमें आनंद, सुकून और जीवन — सब कुछ प्रदान करती है। यही कारण है कि प्रकृति के दृश्यों को देखकर मन प्रसन्नता से भर जाता है।

सुबह जब सूरज उगता है, तो धरती नई रोशनी के साथ चमक उठती है। पक्षियों का चहकना मन में उल्लास भर देता है। पेड़ों की शाखाओं का झूमना , फूलों की महक और हवाओं की सरसराहट हमें शांति प्रदान करती है। प्रकृति का हर मौसम अपना अलग सौंदर्य लेकर आता है।

बसंत ऋतु में प्रकृति अपने पूरे श्रृंगार के साथ खिल उठती है। नई कोपलें, रंग-बिरंगे फूल और सुहानी बयार धरती को स्वर्ग समान बना देते हैं। गर्मियों में पेड़-पौधे छाया देकर हमें राहत पहुँचाते हैं। वर्षा ऋतु में धरती की प्यास बुझती है और हरियाली अपना जादू बिखेर देती है। पर्वत ऊँचाई से हमें साहस और दृढ़ता का संदेश देते हैं।

प्रकृति बिना कुछ माँ गे हमें बहुत कुछ देती है — वायु, जल, भोजन, औषधियाँ और जीने का संपूर्ण आधार। इसलिए हमें प्रकृति का सम्मान करना चाहिए और उसे कभी हानि नहीं पहुँचानी चाहिए। लेकिन जब मनुष्य स्वार्थवश प्रकृति का दोहन करने लगता है, जंगलों को काटता है, नदियों को प्रदूषित करता है और पर्यावरण संतुलन को बिगाड़ता है, तब प्रकृति भी अपना रूप बदल लेती है। भूकंप, बाढ़, भूस्खलन, सूखा जैसी आपदाएँ इसी असंतुलन का परिणाम हैं। जब प्रकृति क्रोधित होती है, तो विनाश अवश्य होता है। हमें समझना होगा कि प्रकृति ही हमारा अस्तित्व है। प्रकृति के बिना जीवन संभव नहीं । इसलिए प्रकृति की सुरक्षा और संरक्षण करना हमारा दायित्व है। यदि हम प्रकृति को संजोकर रखें, तो वह हमें खुशहाली से भर देगी ।

-निष्कर्ष

प्रकृति बस एक स्थान नहीं , एक अनुपम एहसास है — जहाँ हर साँस में सुकून है और हर पल में जीवन।

Don Bosco Sr. Sec. School – Inspiring Tomorrow's Innovators, Empowering Dreams and Transforming Lives

Don Bosco Sr. Sec. School is a prestigious educational institution nestled in the lap of green hills of Pithoragarh. It's more than just a building. It's crafting a legacy of excellence and unbreakable character in the life of its students. Beyond the walls, it's illuminating knowledge for generation of dreamers. It's a school which nurtures student's personality holistically imbued with value system. The school provides a congenial and conducive environment. The development process is accentuated through proper guidance. The young minds are groomed and inspired, intellect sharpened, talents discovered and skills honed to complement academics. Leadership isn't about decisions, it's about love. The Manager, Fr. Sanjeev Kumar and the Principal, Sr. Joyce Fernandes, are working tirelessly in shaping the minds of the students. Under their leadership, the institution is soaring new heights. The teachers are like milestones, they remain at one place yet help their students to discover their potentials in physical, intellectual and emotional areas. As a parent, I stand deeply indebted to this esteemed institution for nurturing my children's dream with unwavering dedication and care.

I would like to conclude with a short poem.

Thank you for keeping my children safe
And protecting their name and heart
For being accountable and professional
For loving them from the start

Don Bosco School: A Trusted Journey of Education and Values

For every parent, choosing the right school for their children is one of the most important decisions in life. We feel truly fortunate that both of our sons have had the opportunity to receive their education at an excellent institution like Don Bosco School. Don Bosco School is not just a place for academic learning; it is a nurturing environment where equal importance is given to knowledge, personality development, discipline, and moral values. The calm, clean, and inspiring atmosphere of the school encourages children to learn, grow, and move forward with confidence. Here, the goal of education is not limited to achieving good marks, but also to shape students into responsible, sensitive, and confident individuals.

The dedicated and experienced teachers make learning simple, engaging, and meaningful. Along with academics, the school actively promotes sports, cultural activities, and various co-curricular programs that play a vital role in the holistic development of students. This balanced approach to education helps children discover and develop their talents while building strong self-confidence.

The leadership of Principal Sister Joyce is truly inspiring. Her vision is to identify the hidden potential in every child and guide them in the right direction so they can achieve their best. Under her guidance, the school continues to progress towards excellence, and many of its students have gone on to make their mark in prestigious institutions across the country.

Both of our sons, Sarthak Joshi and Shashwat Joshi, have been studying at this school since Nursery. Currently, Sarthak is in Grade 11, and Shashwat is in Grade 6. Over the years, we have seen a remarkable growth in their knowledge, discipline, confidence, and positive outlook—something we truly credit to the nurturing environment of the school and the dedication of its teachers.

We would also like to express our sincere appreciation for Mrs. Vijeta Ma'am, Mrs. Rekha Ma'am, and Mrs. Pratibha Ma'am, who have played an important role in guiding Sarthak. Their support has not only helped in academics but has also inspired students to understand the values and responsibilities of life.

As parents, we feel proud that our children are studying in a school that gives equal importance to education, values, and character building. Without a doubt, Don Bosco School is one of those institutions that is guiding the next generation toward a bright and promising future.

Empathy and Moral Values: The True Essence of Education

"The highest result of education is tolerance."
— Helen Keller

Education is not confined merely to textbooks, examinations, and academic achievements. The true purpose of education is to nurture compassionate hearts, enlightened minds, and responsible individuals who contribute positively to society. In an era dominated by competition and material success, the importance of empathy and moral values has become more significant than ever before.

Empathy, often described as the ability to understand and share the feelings of others, is one of the noblest human qualities. It enables individuals to build meaningful relationships, develop emotional intelligence, and create an atmosphere of harmony and mutual respect. A student who practices empathy learns to appreciate the struggles, emotions, and perspectives of others. Such students become more supportive friends, understanding classmates, and compassionate citizens.

Moral values, on the other hand, act as guiding principles that shape our character and conduct. Values such as honesty, humility, kindness, integrity, discipline, gratitude, and respect are essential for leading a dignified and purposeful life. These virtues not only strengthen an individual's personality but also contribute towards building a peaceful and progressive society.

In the field of psychology, it is widely believed that emotional well-being and moral development are deeply interconnected. A morally grounded individual possesses greater emotional stability, healthier interpersonal relationships, and a stronger sense of self-worth. When children are taught to value kindness over selfishness and understanding over judgment, they gradually evolve into emotionally resilient and socially responsible human beings.

Schools play a pivotal role in cultivating these qualities among students. At Don Bosco Senior Secondary School Pithoragarh, education is not merely viewed as the acquisition of knowledge, but as the holistic development of personality and character. The school continuously strives to instill ethical values, compassion, discipline, and a spirit of service in every learner. Through classroom interactions, co-curricular activities, community service, and daily life experiences, students are encouraged to practice empathy and uphold moral principles in their actions.

Teachers, too, bear a profound responsibility in shaping the emotional and moral framework of young minds. Every encouraging word, every act of fairness, and every lesson in humanity leaves an everlasting impression upon students. A teacher's influence extends far beyond academics; it helps in nurturing future leaders who are not only intellectually capable but also emotionally sensitive and morally upright.

In today's rapidly changing world, where stress, anxiety, and social conflicts are increasingly common, empathy serves as a bridge that connects hearts and fosters understanding. Moral values act as a compass that guides individuals towards righteousness and wisdom. Together, they form the cornerstone of a balanced and meaningful life.

Let us, therefore, strive to create an environment where kindness is celebrated, respect is practiced, and humanity is cherished above all else. True education lies not only in producing brilliant minds but also in shaping noble hearts capable of making the world a better place.

"Knowledge gives us power, but character earns respect."

श्रद्धावान्ल्लभते ज्ञानं तत्परः संयतेन्द्रिन्लयः।

A person with faith, dedication, and self-control attains wisdom, and through that wisdom, finds peace.

The purpose of education is not only to impart knowledge but also to develop the whole person. Students need more than academic excellence to succeed in life, they also require social, emotional, and behavioral skills.

Guidance and counseling services in schools play a vital role in ensuring that students receive a holistic education that prepares them for the challenges of life. Guidance and counselling services in schools help to identify and address the social, emotional, and behavioral needs of students, thus improving their academic performance. Counseling services also help students to develop personal and social skills that are essential for their success in school and beyond. The integration of guidance and counselling services in schools can help to create a conducive learning environment, promote student well-being and enhance academic achievement. Teachers and counselors need to work together to ensure that students receive the support they need to succeed in school and beyond.

Counselling programs help identify and address issues that can affect a student's learning, such as anxiety, stress, depression, or behavioral problems. It helps students develop problem-solving skills, decision- making skills, and coping strategies to manage challenging situations, thereby enhancing their academic performance.

Counselors help students to develop healthy relationships with their peers, teachers, and other members of the society. They also help students to develop emotional resilience, which is critical in dealing with stress, anxiety, and other emotional challenges that may affect their academic performance. By providing support, assistance, and guidance, students can develop their academic, social, emotional, and personal skills, leading to improved academic achievement and overall wellbeing.

Guidance and counseling also play a crucial role in addressing academic challenges that students may face. Academic challenges may include difficulties in understanding academic concepts, poor study habits, and low motivation.

Guidance and counseling help students to identify the root causes of their academic challenges and provide them with the necessary support to overcome these challenges. This may include providing students with study skills, organizing tutorial sessions, and providing them with individualized attention.

Counsellors are also, helping students identify their strengths, interests, and career goals, which can help them, make informed decisions about their future. Their goal is to assist students in aligning their abilities, interests, and values to enable them to fully realize their potential. Through self-knowledge, students can formulate life goals and plans that are achievable and realistic.

My journey as a counselor started with a news paper article in 1998, which was based on the career as a counselor and characteristics of a good counselor and it matches with my personality, then only I decided to opt it as career and after completing Master's in Social Work (specialization in guidance
and counseling)I got an opportunity to join CHILDLINE Saalam Balaak Trust in 2004, after that I worked with many other reputed Organizations like SOS Children's Villages of India, Bacchpan Bacchao Andolan, Kendriya Vidyalay No. 3, Srinagar J&K and currently I am working with Don Bosco school Pithoragarh , it was a remarkable experience filled with personal growth, continuous learning and the immeasurable joy. Each day presented new challenges, from navigating academic anxieties and interpersonal conflicts to addressing mental health concerns and future career uncertainty. In these 4-5 years especially after Covid life has changed. Students spend most of their valuable time on social media in their daily life for entertainment, connecting with new people, gaining information. There are some positive as well as negative impacts of social media on students. Controlled use of technology is beneficial for all, but today, it is damaging the mental well being of students. Students who often use social media have reported higher level of anxiety, depression and sadness. It's important to educate students about how to use social media for positive results. Social Media has become a playground for the ultramodern generation. They spend much of their time playing games, watching videos and chatting and posting. But somewhere along the line, they've lost interest in real life. Many don't spare time to spend with parents and family members, which is affecting their emotional and social health. Students have become prone to frequent mood swings due to social media. By using social media responsibly, like following trusted accounts, setting time limits, and prioritizing digital literacy, students can harness the influence of social
media to excel academically.

Tips to avoid social media while studying

1. Close any social media apps.
2. Limit your smart phone usage.
3. Turn off your phone or leave it out of reach.
4. Stop recharging it or connecting it with WIFI.
5. Prepare a journal where your time is going & use reminders.
6. Replace your time on social media with other activities.

'एक्स्ट्रा माइल' परियोजना : सर्वांगीण विकास की ओर एक सार्थक कदम।

"हर बालक अपने भीतर अनंत संभावनाओं का एक उज्ज्वल संसार समेटे होता है; आवश्यकता केवल ऐसे मार्गदर्शक की होती है, जो उन संभावनाओं को पहचानकर उन्हें सही दिशा दे।"

इसी प्रेरणादायी विचार को साकार रूप प्रदान करते हुए आदरणीया प्रधानाचार्या सिस्टर जॉयस फर्नांडिस ने 'एक्स्ट्रा माइल' परियोजना के अंतर्गत विद्यार्थियों के सर्वांगीण विकास के उद्देश्य से एक अभिनव पहल का शुभारंभ किया। उनका दृढ़ विश्वास था कि विद्यालय केवल ज्ञानार्जन का केंद्र नहीं, बल्कि ऐसे व्यक्तित्वों के निर्माण की कर्मभूमि है, जहाँ से संवेदनशील, उत्तरदायी और आत्मविश्वासी नागरिक तैयार होते हैं।

ममता जोशी
पीजीटी (हिंदी)

इसी दूरदर्शी सोच को मूर्त रूप देने के लिए प्रत्येक शिक्षक को एक विद्यार्थी का संरक्षक एवं मार्गदर्शक बनाया गया। इस व्यवस्था ने शिक्षक और विद्यार्थी के बीच आत्मीयता, विश्वास तथा संवाद का एक सशक्त सेतु निर्मित किया, जिसने शिक्षा को कक्षा की सीमाओं से आगे बढ़ाकर जीवन के व्यापक आयामों से जोड़ दिया। प्रत्येक विद्यार्थी की शैक्षणिक प्रगति के साथ-साथ उसकी भावनात्मक आवश्यकताओं, नैतिक मूल्यों तथा व्यक्तिगत चुनौतियों पर भी निरंतर ध्यान दिया गया, ताकि कोई भी बालक स्वयं को अकेला, उपेक्षित अथवा असहाय अनुभव न करे।

इस पहल के अंतर्गत शिक्षकों ने विद्यार्थियों की रुचियों, क्षमताओं तथा कमियों को समझने का निरंतर प्रयास किया और उन्हें दूर करने के लिए सतत् मार्गदर्शन, प्रोत्साहन तथा आवश्यक सहयोग प्रदान किया। परिणामस्वरूप विद्यार्थियों में न केवल अध्ययन के प्रति रुचि और आत्मविश्वास में वृद्धि हुई, बल्कि उनमें अनुशासन, नेतृत्व क्षमता, उत्तरदायित्व तथा सामाजिक संवेदनशीलता का भी उल्लेखनीय विकास हुआ।

इस दूरदर्शी पहल के परिणाम अत्यंत प्रेरणादायी और उत्साहवर्धक रहे। विद्यालय का वातावरण पहले की अपेक्षा अधिक आत्मीय, सहयोगपूर्ण और सकारात्मक बना। विद्यार्थियों के व्यक्तित्व में आए सकारात्मक परिवर्तनों ने यह सिद्ध कर दिया कि संवेदनशील नेतृत्व, समर्पित शिक्षक और विश्वासपूर्ण संबंध मिलकर शिक्षा को जीवन-परिवर्तन का सशक्त माध्यम बना सकते हैं।

यह अभिनव पहल विद्यालय की उस शिक्षा-दृष्टि का सशक्त प्रतीक है, जिसमें प्रत्येक विद्यार्थी को केवल एक छात्र नहीं, बल्कि एक विशिष्ट, सक्षम और अनमोल व्यक्तित्व के रूप में देखा जाता है। यह परियोजना इस विश्वास को और अधिक सुदृढ़ करती है कि उचित मार्गदर्शन, स्नेह और सहयोग के माध्यम से प्रत्येक बालक अपनी क्षमताओं का सर्वोत्तम विकास कर जीवन में सफलता और उत्कृष्टता के नए आयाम स्थापित कर सकता है। वास्तव में, यही इस पहल की सबसे बड़ी उपलब्धि तथा विद्यालय की विशिष्ट पहचान है।

ज्ञान; शक्ति और समझ

जीवन में ज्ञान का महत्व अत्यधिक है। ज्ञान हमें जीवन के सही और गलत के बीच का अंतर समझने में मदद करता है। बिना ज्ञान के जीवन एक अंधकारमय मार्ग की तरह है, जहां हमें कुछ भी दिखाई नहीं देता । ठीक उसी तरह जैसे पक्षी बिना पंख के उड़ नहीं सकता , उसी तरह मानव बिना ज्ञान के जीवन में आगे नहीं बढ़ सकता ।

ज्ञान हमें शक्ति प्रदान करता है। यह हमें अपने *लक्ष्य* को प्राप्त करने और जीवन की चुनौतियों का सामना करने में सक्षम बनाता है। ज्ञान हमें आत्मनिर्भर बनाता है और हमें अपने निर्णय लेने की क्षमता प्रदान करता है। एक ज्ञानी व्यक्ति हमेशा अपने ज्ञान का उपयोग समाज के हित में करता है और समाज को एक बेहतर दिशा में ले जाने में मदद करता है।

ज्ञान के कई लाभ हैं। यह हमें आत्मनिर्भर बनाता है, सही निर्णय लेने में मदद करता है, समाज में सकारात्मक योगदान देने में मदद करता है और व्यक्तिगत विकास में सहायक होता है। ज्ञान हमें अपने *लक्ष्यों* को प्राप्त करने और जीवन को सफल बनाने में मदद करता है।

गीता जोशी
सहायक अध्यापिका हिन्दी

के बिना जीवन में कई कठिनाइयाँ आती हैं और बिना ज्ञान के व्यक्ति अपने अधिकारों और कर्तव्यों को नहीं समझ पाता । वह समाज में अपनी जगह नहीं बना पाता और हमेशा दूसरों पर निर्भर रहता है। बिना ज्ञान के व्यक्ति को जीवन में कई चुनौतियों का सामना करना पड़ता है और वह अपने *लक्ष्यों* को प्राप्त नहीं कर पाता ।

ज्ञान प्राप्ति के कई तरीके हैं। शिक्षा सबसे महत्वपूर्ण है। स्कूल, कॉलेज और विश्वविद्यालयों में दी जाने वाली शिक्षा हमें विभिन्न विषयों का ज्ञान प्रदान करती है। इसके अलावा, पुस्तकें पढ़ना, ऑनलाइन कोर्स करना, अनुभव प्राप्त करना और बुद्धिजीवी लोगों से सीखना भी ज्ञान प्राप्ति के अच्छे तरीके हैं।

बिना ज्ञान के जीवन वास्तव में एक पक्षी बिना पंख के जैसा है। ज्ञान हमें जीवन में आगे बढ़ने की शक्ति प्रदान करता है। यह हमें आत्मनिर्भर बनाता है और हमें अपने *लक्ष्यों* को प्राप्त करने में मदद करता है। इसलिए, हमें ज्ञान प्राप्ति के लिए निरंतर प्रयासरत रहना चाहिए और अपने जीवन को सफल बनाने के लिए ज्ञान का उपयोग करना चाहिए।

बिना ज्ञान जीवन है ऐसा
ज्यों पक्षी बिन पंख,
ज्ञान बिना ना बजे जगत में
नई भोर का शंख।।
